

**Maartje Jansen (student) <MCA.Jansen@student.han.nl>**

*We are Fleur, Maartje and Cindy, Honours students at the University of Applied Sciences at Nijmegen, located in the Netherlands. This program challenges us to become well prepared professionals of the future. Therefore, we'd love to include your knowledge and experience.*

*Our research project is about the revalidation devices for people that suffer with the consequences of a CVA, spinal cord injury or with problems in their upper and/or lower extremities.*

*For the purpose of this research project we want to further explore which digital devices are being used and which are most beneficial for revalidation center.*

**Our question: Please fill in the table below. This will take approximately 5 Minutes.**

Question	Please prioritise by number	Addition
Which (digital) devices do you use for training?  (questions below are related to these devices)	1. 2. 3. 4. 5.	
For which (technical/functional) reason do you use it?	1. 2. 3. 4. 5.	
How do you experience the use of it?	1. 2. 3. 4. 5.	
What kind of instruction did you received to make it possible to work with these devices?	1. 2. 3. 4. 5.	
Patient can use it independently, after instruction, for training?	1. 2. 3. 4. 5.	

*We'd like to thank you in advance and we hope to see an answer before 20 of January 2023. Please let us know whether you are interested in receiving the results of our research project.*

*We hope you have a pleasant time of the year.*

*Best regards,*

*Fleur Rutjes, Maartje Jansen and Cindy Willink*

*Honours Students at HAN University of Applied Sciences*
